

SUMMARY

Detail-oriented Informatics graduate from Telkom University with a GPA of 3.75 (Cum Laude) and a strong focus on cybersecurity. Published IEEE researcher specializing in Web Penetration Testing using collaborative multi-agents. Proficient in vulnerability analysis and technical documentation, with hands-on experience using security tools like Nmap, Burp Suite, and OWASP ZAP. Currently advancing technical expertise in Wazuh, Ubuntu Server, and AI-driven security operations to enhance threat detection and incident response capabilities in a professional SOC environment.

EXPERIENCE

Practicum Assistant for Object-Oriented Programming 09/2024 - 01/2025
Informatics Laboratory Telkom University ↗

- Assisted in practical sessions of Object-Oriented Programming course.
- Supported students in coding exercises, debugging, and applying OOP concepts.
- Developed communication and leadership skills in a structured academic environment.
- Guided students in practical tasks and monitored lab safety and performance.
- Assisting students in completing tasks given by the teacher, providing explanations without providing the answers
- Help teachers to check each task that is done and give them grades according to the existing rubric.
- Hold a response session for any practicum participants who want to ask questions or feel they have difficulties in carrying out the practicum, either during or outside of learning time

Information Technology Support Specialist 07/2024 - 08/2024
Tene Group (PT Permata Dunia Sukses Utama (PDSU)) ↗

- Developed web-based attendance system using Laravel and PostgreSQL, integrated with fingerprint and RFID.
- Studied a OpenCV, MediaPipe, and PyAutoGUI and Created Virtual Mouse.
- Studied and implemented basic PLC systems in production automation.

Cybersecurity Intern - MBKM Program 02/2024 - 06/2024
Direktorat Pusat Teknologi Informasi (PuTi) Telkom University ↗

- Conducted in-depth research and practical implementation of penetration testing using multi-agent systems.
- Studied core concepts of ethical hacking, including Red Team and Blue Team methodologies.
- Utilized a wide range of penetration testing tools such as Nmap, Nikto, Wapiti, Burp Suite, OWASP ZAP, and Nessus Essentials.
- Worked in Linux-based virtual machines to simulate real-world attack and defense scenarios.
- Completed weekly penetration testing projects and reports, reinforcing practical skills in vulnerability analysis and documentation.
- Received mentorship support for undergraduate thesis, which was accepted as a research paper in IEEE and presented at The 2025 International Conference on Advancement in Data Science, E-learning and Information System (ICADEIS).
- Engaged in webinars and team discussions to enhance knowledge and collaboration within cybersecurity domains.

Practicum Assistant for Communication Network

01/2024 - 06/2024

Informatics Laboratory Telkom University ↗

- Assisted in practical sessions of Communication Network
 - Supported lab sessions related to networking.
 - Developed communication and leadership skills in a structured academic environment.
 - Guided students in practical tasks and monitored lab safety and performance.
-
- Assisting students in completing tasks given by the teacher, providing explanations without providing the answers
 - Help teachers to check each task that is done and give them grades according to the existing rubric.
 - Hold a response session for any practicum participants who want to ask questions or feel they have difficulties in carrying out the practicum, either during or outside of learning time

Information Technology Support Specialist

01/2020 - 03/2020

PT PERTAMINA (Persero) ↗

- Assisted in maintaining and troubleshooting enterprise IT infrastructure, including hardware, software, and network connectivity.
- Supported internal users with system issues, device configurations, and application-level support to ensure business continuity.
- Observed and learned about secure network setups and firewall configurations to maintain reliable and safe communication across departments.
- Documented technical issues and resolutions to enhance support team efficiency and incident response.
- Gained exposure to cybersecurity fundamentals by observing secure access control and internal IT policies.

EDUCATION

INFORMATICS

08/2021 - 03/2025

Telkom University - Bachelor Degree

- Graduated Cum Laude in 3.5 years with a GPA of 3.75 from Telkom University, majoring in Informatics.
-
- Completed a final research project titled "Web Penetration Testing Using Collaborative Multi-Agents and Integrated Reporting".
 - Research was successfully published as an IEEE paper and presented at The 2025 International Conference on Advancement in Data Science, E-learning and Information System (ICADEIS) (<https://ieeexplore.ieee.org/abstract/document/10933244>).

SKILLS

Analytical Thinking	Computer Vision & Automation : OpenCV, MediaPipe, PyAutoGUI	Basic
Teamwork		
Problem Solving	System & Network : IT Troubleshooting, Network Configuration, Linux VM	Basic
Mentoring		
Research	Database : PostgreSQL, MySQL, PHPMyAdmin	Intermediate
Technical Documentation		
Communication	Programming : Laravel (PHP), JavaScript, Python	Intermediate
Time Management	Cybersecurity Tools : Nmap, Nikto, Wapiti, Burp Suite, OWASP ZAP, Nessus Essentials	Intermediate
